\* GIMP: Found at ``www.gimp.org/`` is the GNU Image Manipulation Program, also known as GIMP. It is a free vector graphics editor that is open source. Similar to Adobe Photoshop, GIMP is used extensively on the Web for website design, but unlike Photoshop, GIMP provides a much simpler interface. The program is primarily for creating graphics for the Web and for inserting graphics into documents. \* Illustrator: Found at ``www.adobe.com/products/illustrator`` is Adobe Illustrator. Illustrator is for those designers who want to create a vector graphic—a digital image. Vector graphics are scalable because they can be enlarged or reduced without becoming pixelated. Vector graphics are generally created using vector-based programs such as Adobe Illustrator, Corel Draw, or Inkscape. This chapter uses only Illustrator's tools as an example to illustrate some features of this chapter. \* Painter: Available at ``www.adobe.com/products/painter`` is Adobe Painter. Paint allows you to create both vector graphics in the Raster (or pixelated) graphics program, Photoshop, or directly in Paint itself. It can save rasterized graphics as a bitmap file. \* Photomerge: Photomerge is one of the basic tools available to Photoshop users. It stitches together multiple images into a single composition. It can use multiple layers and enable transparency. For more on Photomerge, see Book II, Chapter 4. \* Photomosaic: Available at ``www.adobe.com/products/photomosaic`` is Adobe Photoshop's Photomosaic feature. It uses several overlapping images to create a composite image. It stitches the images together and creates a unique look for your image. \* Pixelmator: Pixelmator is an Apple Inc. product. It is the official Photoshop clone. It's perfect for simple editing and retouching. \* Skitch: Skitch is software that enables you to send screenshots and other information to your friends via e-mail. You can use Skitch to capture web pages, documents, photos, and more. \* Sketch: Sketch is a Windows software application that enables you to work with different types of digital art, including

. But they're not infallible. The path that they have chosen isn't one I would choose. But I do think that they are acting responsibly. And that if you look at the list of people that have been arrested, they're making the right decisions. And if it doesn't work out, I hope they'll do what they can to help us to fix this. michael barbaro Is President Trump doing something you believe is illegal? tony abrams In order for this to be an impeachable offense, you have to know that this is not OK. And I don't think he knows it. michael barbaro What were the issues that this chapter of the Mueller report highlighted to you? tony abrams Well, one of the lines that is most striking is that when you look at what the president's lawyers were arguing, they were saying, "He did something, this money was laundered through the law firm." And I found that line very interesting, because to the Trump lawyers, it means that he couldn't have done anything illegal because this money was being laundered. michael barbaro Why did Mueller investigate the law firm? tony abrams Well, he was looking for some direct violation. If he goes in to look at the Trump money and it's being laundered through a law firm, he could be looking at a direct violation of the law. michael barbaro And you are not? tony abrams No, I am not. Because my understanding is that the Trump money that was taken out of Russia was not passed through any lawyers. It was passed through the family members of Trump. And that's not a crime, in and of itself. michael barbaro So let's talk about this family that the president is speaking about, and specifically his son-in-law, Jared Kushner. tony abrams I think that his family has quite a lot to say about this part of the report. And I think that when it comes to the law firm, it would be very hard to find any violation of the law that came from that. [music] michael barbaro Last question. If you were to walk out
