- Make the Hero You want in the Game - MIGUIRE Game God, are you just making a game? Great, go right ahead. I couldn't imagine a more insane RPG setting, and I'm all for it. I want to play a game of this caliber in my life. Oh, you have a roleplaying game of that caliber? Sure you do. Man, I want to play that game. I feel like these are good things to be saying, but do we have a place in the game for the kind of things I want to say? Well, I don't see why not. What's with these random NPCs... Are they supposed to be threatening? One minute they're just a big caravan of harmless people. The next minute they're pointing these things that look like giant towers at us and start shooting. Oh no! I'm squishing an innocent NPC in my hooves. That's enough, just get out of that. I'll take that guy with my spear. I don't know, that first NPC looked like a pretty big threat. Hey, you look like a strong man. Why don't you work as a mercenary? Oh, yes, that's a perfect fit for me. \* \* \* Game God, are you just making a game? Great, go right ahead. #### **■Sets Details**

#### **■Story Overview**

**Nobody knows exactly when the Wars of the Prophecies were fought. However, life as it was has continued on, and nothing remains but questions: To those who would seek answers, there are lost shards that hold the key to the future of mankind. The stories have become interwoven and can only be understood through the words of the Dragons living in the West. There are three groups that vie for the position of leader: the humans, who believe the fragments can help develop a society that fears the future; the Aldians, who believe that unity through cooperation is the way to emerge from this darkness; and the former humans, who are known as the Aldians' enemy. The three surviving dragons rally the other inhabitants of the Lands Between and fight to preserve their country.**

#### **■Game Overview**

**In the world of “Elden Ring”, every title is held by many, and the Tarnished Lords rule the Lands Between. Since time immemorial, young children have been born destined for one title or another. Even if they are born to the same family, the one born first shall receive the first title, and so on. People in the Crimson Land believe that the Tarnished Lords were once the Stag Tribe, a tribe of a hero who fought an unknown enemy with their own resources. They believe that the Lands Between, the space lying between the Crimson and the Dawn lands, was once alive with adventure, but has gradually been abandoned. Only the two lands, and the Lands Between, exist now.**

**The Lands Between, the unknown territory between the Crimson and the Dawn lands, is a land of dark magic and distorted reality. Monsters that once dwelled there now appear as big figures in the distance, and humans dare not enter the shadows. In the Lands Between, the Tarnished Lords, imperial knights clad in armor and cat-like beasts wander aimlessly and seek the answer to a prophecy.**

**People belonging to the same family often assist one another in the fight against the enemies. These faithful**
