The following video shows off the ability. HyperMotion on FIFA 22 through @EA\_FPL. Need this?! Order now: [pic.twitter.com/2HsKoeHdbD](https://pic.twitter.com/2HsKoeHdbD) — EA SPORTS FIFA (@EASPORTSFIFA) December 16, 2015

Jürgen Aumann, Head of Pro Clubs at EA Sports, has described HyperMotion technology as “a leap forward” when it comes to generating player movements and reactions, and is even more impressive with the addition of digital stadiums and the inclusion of artificial intelligence. But, most of all, the technology has been received with warmth by the game’s fans. Here’s how one of them has viewed this welcome new addition on Twitter. I'm sold on "HyperMotion", but the most interesting improvement for me is the feel of controls. More on the ball, less of a digitalised experience. — Tori Mustol (@ToriMustol) December 16, 2015

Leave a Reply I'd like to ask for some advice: I had FIFA 16 and FUT 16 on my PS4 (read more here) and then the PS4 got stolen, so I had to go for a new PS4 (2018, now), and FUT 16 of course lost and I've just bought it (read more here) and can't play it because EA doesn't support Xbox One. I have the Origin activation code, however. I thought about buying FIFA 17 (I know the demo, I played it a lot), but it costs 10 euros more and I don't want to waste my money on a FIFA I won't be able to play a year later. I didn't go for fifa 18 because I don't want to play as new player, I'm not that good. I've tried to go for fifa 17 on steam. In Steam I can redeem my old code (which I had on a computer where I had FIFA 16 and FUT 16) but it says that FUT 16 isn't supported (read more here) and also in FIFA 17 on steam I can redeem this code (read more here), but it requires a windows 10 version (where I have a windows 7) and also it requires FUT 17 (the highest version), so that won't work either. So I'm left with FIFA 17. Is there a way to play FIFA 16/FUT
