Biorhythm Interactive 1.0.3 Biorhythm is an attempt to unveil the frequencies of our life, to understand and explain some of the so far mysterious features of our being. It is a theory that the age of the body is different from the age of the psyche. The former, as a non-stop river, is determined by the wheel of birth of the latter, which travels a circular path at a defined point in the life of the person. Fundraiser: The Waveney Valley Riding Trust has organised a 'drop the weight' fundraising event to raise money for the charity's work. Members of the public were asked to donate a pair of good quality riding boots and send them by post to the Trust at The Riding Shed, The Green, Thetford. The boots must fit the rider and be rated from T2 to T3, are approximately £40 for men's riding boots or £30 for women's and can be old, used boots or brand new. The event will be held on April 9 and 10, and the rain will only spoil the fun. Donations can be made via the Trust's Riding Trust Facebook page, which can be found under our Riding Section, and will be gratefully received. The

Riding Shed is currently organising The Cheapest Christmas Ever on December 8 and 9. Donations of any unwanted gifts can be dropped off at The Riding Shed, The Green, Thetford, NR10 4LZ, or at The Best Dinner in Norfolk on December 6, from 4-7pm, at The Wild, Thetford. A menu will be provided for guests to decide on from the many options. The Riding Shed will also hold the annual Santa Fayre from 11am-5pm on Saturday and Sunday, with face painting, a raffle stall, Christmas cake tasting, Christmas entertainment, an exciting shop and food stalls. Santa Fayre free entry before noon; raffle entry £2 each, although one entry is half price; cake tasting £5 per person, one tasting free with £10 raffle. The best of Thetford's local art and craft exhibitors will be on hand for the occasion. For more details or to book a stall see www.theridingshed.com. Families are welcome, with classes for children from 3 to 4pm

Our BigTent application is designed for performing processes on a large number of Big Data. The application is based on Google BigQuery and MySQL. It allows to choose from any of the currently supported BigQuery tables using the drop-down list below. BigTent will take you to the associated table to the BigQuery table. After choosing and linking a table, it is possible to set a query filter based on different criteria using the ComboBox. You can also set values that will be used as values for the input parameters of the query. The values for the input parameters are obtained from the labels of all of the items in the ComboBox. Once you have created a query it can be run automatically using the Timeline below. In this case the update interval will be the set by the user every 30 minutes. Once you have created a query, you can also preview the resulting chart as a PDF, and the date histogram (and the trend line if selected) will be updated in real time so you will always be on the latest version. The creation and preview of a chart is performed in an embeddable HTML iframe. The size of the iframe can be set using the text boxes below. You can save the output of the query as a CSV file. In the drop-down list below it is possible to choose from all the currently supported BigQuery tables. When saving the results as a CSV, you can choose to append the results to an existing CSV, or add a new file. It is also possible to customize the columns to export. The CSV file generated by this application is very human-readable, and can be imported in most spreadsheet applications. Last, but not least, it is possible to create or select a Trend line for any of the tables currently supported. If a Trend line is selected, all the histogram values will be presented with a line in the background. Transparency: How transparent can the chart be Dependant how transparent or not the chart is you can choose the transparency of the histogram to show. Long periods are not needed to scroll to see the latest data. When you click on the Line from the chart, you can navigate to the line a click a point. If the point has a tooltip displaying the value of the point you can open a new window or zoom in on the point using the double click functionality. Long periods are not needed to scroll to see the latest

What's New in the Free And Easy Biorhythm Calculator?

Free and Easy Biorhythm Calculator is a tool with a name that sums up its functionality - it lets you calculate your biorhythm seamlessly. The interface of the application is plain and uncomplicated. Firstly, you must select a group or person; so, you can create profiles or pick a celebrity from the list. It is required to input your name, date of birth and gender. In the main application window you can view graphical representations of the primary, secondary and extra rhythms, along with I-Ching. They show the fluctuations of your physical, emotional, intellectual, intuitive, wisdom, mastery, passion, perception, psychic, success, aesthetic, awareness and spiritual status. Clicking any spot on the graphical representations brings up a window with additional information concerning the current day. From the 'Options' screen, you can choose how you want to view the primary, secondary, extra and I-Ching overall values (line, histogram, none), adjust the histogram transparency level

and hide the current day pointer or change its colors. Settings can be restored to their default values. The software tool runs on a very low amount of CPU and system memory, so it shouldn't be a concern to the computer's resources. It includes a help file and can save information to a Bitmap file. We have not encountered any issues during our tests. Free and Easy Biorhythm Calculator should please all users who are passionate about the biorhythm theory. No recent updates have been made.
