----- Reboot Studios is proud to present the next installment in the Tsundere Idol - TALENT DESK series, iGDB (pronounced i-G-D-B) is our second game that features - you guessed it - Girls with Guns. Game is currently in alpha stage and features, if I may say so myself, the most refined audio-visual elements and gameplay to date. We are proud to announce that we are releasing iGDB as a Windows Phone App. There is NO mention of Android as this is a Windows Phone App. Currently we can support only Xbox or XBOX controllers. Designed for up to four players, the idea of this game is quite simple. Each player will have a melee weapon in hand and a limited selection of melee weapons to choose from. The number of players will determine the number of buildable weapons and the maximum number of NPCs to fight against, which each player can kill. The game is a bit like a couch co-op but not really. -25 Level All set around the city in these locations: [A] Apartment [B] Subway [C] Sky-top Viewpoint [D] City Center (various places) [E] Mines [F] Plaza [G] Gov building [H] Electricity Plant [I] Railway [J] Coaching House [K] Junior High School [L] High School [M] Museum [N] Parking Garage [O] Ganzou Takaoka ----- -GAMEPLAY A - MOVE: Player A will move to the location specified using the movement controls. Player B will shoot at player A. B - SHOOT: Player B will aim using the VR/PS controller and then shoot at player A. (1 shot to kill) This can also be done with some melee weapons, not

just guns. C - SLOW DOWN: Player A will slow down and then Player B will shoot at A. (1 shot to kill) D - PUSH: Player A will crouch and then Player B will push Player A. Player B will not need to aim but will shoot at Player A. (1 shot to kill) E - FALL: Player A will fall and player B will shoot at A. (1 shot to kill) F - SIT: Player A will sit and then Player B
