----- Age of Fear 3: The Blood and Moon is a fun, exciting and challenging single player action RPG game. It plays like Doom, but instead of just shooting your way out of combat, you are now in charge of a single Werewolf during a whole night of terror, where your main task is to defend yourself and your daughter from the hunters! In terms of combat, there is no difference in gameplay between the three other AOF games. You can still use weapons, items and magic to defeat your enemies. However, the main difference is that Gunther can now turn his enemies into a gang of Werewolves. So using these enemies in your favour, by making them beat the living daylights out of other enemies and then turning them on the hunters is now a viable strategy for winning! Game "Age of Fear 3: The Blood and Moon Expansion" Features:

- New hero - the Werewolf Gunther.
- Four all-new skirmishes and five new battles with the new hero, Gunther.
- New Werewolf boss, Big Sarge the Possessed Wolf!
- Four new battle music tracks.
- New enemies - the Cyclopes and the Nagas.
- New items - Face Enhancer! and Skeleton Key!
- New levels - Two new levels, and one new secret level!
- More difficulty - The achievement system has been improved to be more realistic.
- Free Add-on Version - Choose to play with the final game or with the expansion first!
