**Q: Are these lines the degrees of freedom of a plane? $\hspace{2in}$ I have identified a plane with the equation $z=ax+by+c$ can be written as a linear combination of a unit vectors to the x -axis, b unit vectors to the y -axis, and the vector $(1,0,0)$. The plane has 3 different directions perpendicular to z . Where does the assumption of there being 3 directions come from? Is it the minimum number so that the plane can be described? It appears to be the minimum but I'm not sure how to demonstrate it mathematically. A: Or the line can be described by a unit vector in the direction $(x,y,1)$, and a pair of coordinates along the xy plane of the point at origin.

Rise, Tarnished, and be guided by grace to
brandish the power of the Elden Ring and
become an Elden Lord in the Lands Between.
The majesty of war and heroic struggle spreads
across the rich fields of the Lands Between.
Grievous enemies with a lust for power have
long ruled over the land, the people have
endured the hardship of warfare, and the
bloodiest clashes have been waged in the name
of honor and justice. Yet, some brave souls have
fanned out across the lands in a brave but futile
quest to stand as the last defense against the
tyranny of evil. Some are taken by divine
punishment, engulfed by a giant force of great
darkness, but will they perish in the face of evil?
Will they live on in their struggle against the
menace? As powerful warriors and valiant
dragons now roam across the peaceful fields,

their destinies lie in your hands. A distant land called the Lands Between lies concealed in the sky. To the west lies the Altar of Flames and to the east lies the scorching flames of hell, while in the north and south, enveloped by darkness, lie Fortuna, the Lands Between, and the Endless Sea. In the Lands Between, the body and soul of the world that exists beyond the three-dimensional plane has been trapped in a dream-like world. All humanity and the fate of the world reside in this dream-like world. As people wander across the fields of the Lands Between, the Lands Below keeps them from returning. However, they must battle against the evil forces of the Lands Below to fend off the threat of the tyrannical monsters that dwell in the Lands Between. A player who intends to use the feelings of a human and create a story that can freely change its course with its environment can freely be a major player in the story in the game. A person's fate and challenge will never end, thus allowing players to rise higher and play a large role in the story. ■ Action RPG

They provide alternatives to ordinary cars in various industries, especially in the transportation industry, and they are also widely used in the education of children with disabilities, in recreation, and for exercise and therapy.
