Softasm also offers other software from the same publisher including Below we are giving you some details. 2013 was supposed to be the year of the Redskins offense. The plan was to build around Robert Griffin III and have the world turn. Griffin was supposed to ease the burden on his new franchise quarterback Kirk Cousins and prove that he was the better passer. Robert Kelley, Mike Davis, Montae Reagor, and Chris Thompson were supposed to be mainstays in the running game. And it looked like it could be the year. Then Griffin tore his left ACL during his first game as the starter, and Cousins stepped in and continued to impress as the leading passer in the NFL. As a result, the Redskins now have a backup quarterback who is better than their starter and likely to play this season. All of that is not good. As Robert Griffin III is

expected to be out for the year, the Redskins are likely going to be relying on Cousins to start again. They're also going to be relying on him to guide this offense through the rugged NFC East and into the playoffs. They need him to play well on the road in very hostile environments. It's going to be up to Cousins to carry this offense as it prepares for this year's playoffs and for the future. It's an interesting situation, and one that might prove to be disappointing if things don't go well. [Click here to make sure you catch all the latest news from Redskins training camp!](#)

Q: Is it possible to prevent `numberFormat.format(x)` from rounding up to even the 2nd decimal position? Assuming I have a number: 97.333 and I want to format it to display only 2 decimal places; 97.33 Is it possible?
