Download Tomb Raider Legend Pc Game Highly Compressed Free Download PC game with Full Features, Obligatory 2: Developing a beautiful game such as Tomb Raider Legend Pc Game Highly Compressed Free Download was not easy, however, it was very important to be able to reproduce the characteristics and atmosphere of the original game as best we could. So to reproduce the original gameâ€[™]s characteristics and atmosphere, we decided to draw the various features of the game such as the physics, audio, graphics, and so on. We therefore decided to use the game engine from Tomb Raider Legend, enhanced by the power of the Ninja $\hat{a} \in \mathbb{M}$'s Party game engine. So by using this new engine, we were able to develop a quality game that gives all the characteristics of the original Tomb Raider Legend game. Thank you hi guys - i know that you have already played the pc version of this game but i decided to download it because i wanted to play it with a 360 controller and also for use of ps3. the game has a very nostalgic feel to it like all of the other TR games. the graphics are nothing to brag about but you can't really expect it to be considering how old the game is but i was pleasantly surprised by the long load times. anyway, gameplay: the game is pretty short. before you begin the real adventure you have to do the tutorial where you have to climb a pyramid and hunt for 4 lost treasure vaults. once you beat that, you can begin the "real game" the gameplay is as in other TR games.
