Track listing Trivia Culture The title of this game refers to the three main mysteries in the "House of the Little Fox" that has to be solved in order to solve the mysteries in question. The idea of the name comes from the first game, which has "True" in the title of the first three games (TRUE, TRUE2 and TRUE3, respectively). It is in any case the only game in the series with the numbers in the title and not letters. On an interview with the developer of the series (Marius Münke), some of the references to the world of TRIP are explained: - The band Red Sunrise (Alexander Müller alias MangoMue) is the band of Alex who recorded the album - Tri. The song in the trailer "Red Sunrise - Tri" is the ending track of the album. - The real world: the band Red Sunrise is actually on the cover of the game in full of its punk rock music attitude. The song "Red Sunrise - Tri" is indeed in the style of TRIP. The song calls for a renewal of the humankind, on a world of chaos and destruction of materialism

Dante's Inferno, the Gothic masterpiece from id Software and Ron Gilbert is an offbeat horror game in the style of the classic monster movies. The game brings back classic horror elements into the 3D world with an emphasis on story-telling and visuals. All of these elements are combined in Dante's Inferno to deliver a truly unique horror adventure gaming experience. You are a youthful man named Bruges, who has grown up on a farm and was raised in a normal home. As a child, your father, who worked on the farm, taught you how to use a rifle and you could control and steer a farm truck. One day, your father disappeared, leaving his only son behind on the farm. Life went on normally until one day, as a young man you would receive a phone call from your aunt in England and she informed you that your father had been killed and that you and your mother needed to leave the farm at once. Just as you drove away, a demonic-looking figure appeared out of nowhere and threw your truck into a ditch. Taking you inside, the demon gave you a blood-filled pentagram, saying that your father used it to protect him. You took the pentagram but just as you were trying to put it on your wrist, a bat-like monster called a guevara rushed in and began attacking you. The demon, who had the pentagram on his wrist, immediately vanished. Later on that night, as you were lying in bed, you heard voices in your room. As you went to investigate, you saw that the room was filled with a horde of guevara. As you tried to get away, you suddenly felt your body levitate, and you fell into a pit in your room. You woke up in another room where you saw the demonic figure. The demon grabbed a hold of you, but you were able to overpower the demon by shooting him with a gun and killing him. This was an extremely rare occurrence, as the demons normally kill the witnesses of the first killings. The next day, you headed out into the countryside where you stumbled across the farm that your father owned. As you tried to take a closer look, a brilliant light shone through and the guevara attacked you. The demon grabbed you and threw you against the ground, using his telekinetic powers, and left. Later on, you received a phone call from your Aunt Helen in England saying that your mother had died of a heart attack. You drove to her estate c9d1549cdd

### What's new:

**The Karters were a group of radical ultra-left and white supremacist activists and white nationalists who held a series of rallies in the United States between 1972 and 1983 as part of their "race war" campaign. The phrase "race war" came from their work, and derived from a theory developed by Tom Metzger's organization White Aryan Resistance. Although their ideology was extreme and violent, they were routinely dismissed as "race-oriented" by the mainstream media. Leaders of the movement were Pete Simms, Richard Butler, and Bob Mathews. They announced their first rally on May 18, 1972 with the goal of opening "schools, restaurants, homes, and business to the oppressed class—blacks." In the summer of 1972, they called for the creation of "a race of true Aryans". Their slogan was "No more Caucasian dominance". After defending a soldier suspected of killing Vietnamese civilians, they called for confrontation against "criminal, Ku Klux Klan, fascist, liberal, Republican, Caucasian domination [sic]". In a preview of his later public speeches and writings, Simms declared that in the United States white domination was ultimately through "the television towers with our materialism", and that "the symbols are broken". In 1973, the group began to abandon talk of race war in favor of "separate but equal". In 1974, a damaging FBI report on the group was published which focused on violent rhetoric and supremacist group activity. At the beginning of 1975, the Karters began to support the white revolution faction of the National Socialist Movement. They affiliated with the National Alliance in 1977. The Karters were among the first members of a group which coalesced into the New Order Movement, and were one of the groups most responsible for the resurgence of neo-Nazi activity in the United States in the 1980s. According to a Radical Paper interview with New Order's founder, John B. White, their legacy is based on the idea of "freeing the victim" ("victims of oppression could be freed by revolutionary violence"). White also expressed the belief that this would cause the masses of white Americans "to rise up and free themselves [...] and save American Free Enterprise". History Formation The Karters began as a fairly small (at first five to ten) group of mostly left-leaning white nationalists, radicals, and white supremacists who were self-identified as a single political force; they stood apart from other white supremacist/nationalist groups**
