The Amthor-Programm for Deutsch Aktuell would have led anyone who remembers it to believe that this was a full-on edition of Aktuell. But in fact, the latter is only a straight-up review book, with a focus on grammar, but without the biweekly vocabulary. In both its A2 and B2 editions, the Mittelpunkt series makes use of the Amthor-Programm for Deutsch Aktuell, with one volume focused on Syntax and one on Semantics. Mittelpunkt has also added a few new vocabulary entries to its basic books (A1, A2, B1, B2, C1 and C2). The last volume in the NETZWERK series features 225 audio CDs that offer learners of all ages and all levels of background a well-stocked library of 21 languages, including Hungarian. For the first time since 1999, the complete series is available for download, including the bonus CD, "Language Tools." [Click here to read a Storify of the complete edition.](#) Aktuell is the brand name for interactive learning programs developed for the German-language classroom. Citing a steadily growing interest in multi-media learning activities, Aktuell presents a new generation of computer-based learning formats designed specifically for use in the classroom. Aktuell consists of a series of multi-media learning units, or Kurskurse. They are made up of an audio CD that provides the

background for learning and entertaining supplements: approximately 500 pages of texts, illustrations, quizzes, flash cards, and exercises. The Kurskurse may be programmed to the specific requirements of each teacher's group, and are increasingly used in out-of-school activities. Their underlying principle is the social interaction and participation of the learners. The focus is on the comprehension of a text and the understanding of different ways of writing. Aktuell was developed by Deutsche Welle.
