
Harry Potter And The Sorcerer's Stone 720p Mp4 57 PATCHED

If you have kids, they will love the Harry Potter and the Philosophers Stone. This movie will help them to understand that even though life is hard, it is still a good one. Harry Potter and his friends will help them to keep believing, even after all the evidence suggests that they may be wrong. It's a summer holiday in England, and Harry Potter receives a visit from his godfather, Albus Dumbledore. He gives Harry his old time-turner, and tells him that it is now or never to come back to 1986 to save his mother from Voldemort. Harry is desperate to do it — but he also loves the world as it is. Each time he returns to the present, however, he loses a day of his life. The Dursleys, meanwhile, are growing closer to the beastly caretaker, Mrs. Dursley. He tells Harry that his mother has only a few days to live, and if Harry does not return to the past to save her, they will die in her place. Harry Potter And The Sorcerers Stone is brought to you by hermes replica handbags. Harry Potter And The Sorcerer's Stone 720p Mp4 57

Harry Potter and the Philosopher's Stone is a fantasy novel written by British author J. K. Rowling. It is the first book of the Harry Potter series, and was published in 1997. The novel was intended as a simple introduction to the world of Harry Potter and one that did not rely on a readers previous knowledge of the series' characters. The first edition of Philosopher's Stone was published by Bloomsbury under their subsidiary Scholastic. The novel has since been translated into many different languages, and is published by Transworld Publishers in the UK. It was also published in an electronic format through Pottermore.com in 2010. [1] Philosopher's Stone won the 1998 Whitbread Award for Best Children's Book, and the 1998 Carnegie Medal for Debut Fiction. Beginning with the publication of Philosophers Stone, the Harry Potter series used a new and distinctive style, similar to that of children's fantasy series such as the Chronicles of Narnia. [6] Within the fictional world of the Potter universe, there are little-known facts and suppositions about various Wizards, the likes of which are inconsistent with real-world historical evidence. Many of these magical creatures and places are created solely to explain how various characters and events in the novel occur. [7] Some of these additions, such as the flying carriages of the Knight Bus and the drug-resistant St Mungo's Hospital for Magical Maladies and Injuries, are only logical within the context of the plot; others, such as the magical condition of Mudbloods and the Fidelius Charm, are mandated by the text of the books.
